

# CONTRACTOR SPOTLIGHT

## Jerry Walker Flooring

**Jerry Walker, Jerry Walker Flooring, Harvest, Alabama has been in business for almost 30 years and using Glitsa products for fifteen of them. His business is primarily residential: 80% residential and 20% commercial.**

Jerry says his best job ever is his personal home, “It has actually been used as a gymnasium from time to time. The floors have been down and finished with the Gold Seal system for seven years. The floors have never been refinished.”

His product of choice is Glitsa Gold Seal and now Glitsa Infinity Waterbase. Glitsa’s Snap Dry, quick drying waterbase sealer topped with Infinity Waterbase has gained much popularity with his company. Jerry says his reason for using Glitsa products is, “It is time friendly, user friendly, and has never failed to produce the end result that I require with minimal complaints.” Jerry also notes another important reason for using Glitsa products is that they are consistent time after time, after time!

A house located in the historic section of Madison, Alabama is the most difficult job Jerry recalls. The house was built around the turn of the century and the floors

**Floor finished with Infinity Waterbase System**

were Antique Heart Pine. Unfortunately, the floors had been over-layed with every type of flooring imaginable over the decades. They had seen every form of floor covering, from cut-back linoleum to glued down carpet and tile. Jerry says, “All was removed, floors sanded, and once again Glitsa came through in the clutch!”

Jerry’s tip for both the Infinity Waterbase and Gold Seal Systems – Use the correct coverage rates to ensure good flow and don’t leave trail ridges. He has used Infinity Waterbase in commercial areas with excellent results. One particular job that established Infinity as the best for Jerry and his customer is a carpet showroom in a retail facility. Jerry gets reports that the finish continues to generate interest and amazement by its ability to resist wear and continue to look as good as the day it was applied, and with minimum care.
